- UV Stabilised
- FEA Certified
- Ribbed Walls to Prevent Bulging
- Made From Virgin Polyethylene
- 4 Overflow Positions

Diameter: 1420mm
Height: 1280mm

Product Code:
WT1500

Water Tanks

FSP's Round Plastic Water Tank range has been designed for longevity and is extremely strong.

Ribbed walls are designed to enforce and prevent bulging.

Plastic Water Tanks are moulded in one piece so there are no joints or weak points. This inevitably means that no leaks will occur.

The 1500L Round Water Tank has four overflows positions that enable the customer to cut a hole where it suits the drainpipe. The 1500L Round Plastic Tanks are made from virgin polyethylene.

The 1500L Round Water Tank comes with a 10-year warranty.

It is fully UV Stabilised to ensure long-lasting durability to withstand the harsh Australian sun.

The 1500L Plastic Water Tank is made from Polyethylene and excludes light and therefore inhibits algae growth.

Compliant Oz Water Tanks meet Australian Standard AS/NZS4766 in design and manufacturing are undertaken to meet that requirement and includes the Australian standard AS 2070 food grade/AS 4020 for drinking water. Oz Water Tanks are FEA certified.
